The Zambia – ASSP II project team is very pleased to announce the

AOC Certification workshop

- **OBJECTIVE**

As the Zambian aviation sector continues to grow, consequently the ZCAA will soon face applications of prospective operators and will have to issue new AOCs including OPS Specs.

The purpose of this workshop is to support to understand and strengthen the AOC certification and oversight process within the ZCAA for its the implementation by the Zambian aviation regulator.

This workshop will be deliver in two sessions, two different working weeks in October 2109 and a second session later in 2019/2020.

The outcomes of this follow up activity are:

- To facilitate obtaining knowledge on the related, Requirements (ZCARS), Regulations and internal CAA processes and EASA certification and Oversight regulations and best practices;
- To facilitate obtaining knowledge on the main international regulation (ICAO Annex 6, ICAO Doc 8335, etc.) and best practices;
- To learn the approval processes and normal timelines needed for its performance;
- To create a forum for dialogue among the interested stakeholders;
- To support the CAA to create a roadmap for a Certification process.

The topics to review during the workshops are

- AOC Certification (including re-certification principles) principles
 - Theory
 - On-the-job training
- AOC Oversight
 - Theory
 - On-the-job training
- AOC Ops Specs Training
 - Theory
 - EDTO
 - LVO
